## **Oak Ridge-Based Information International Associates Awarded \$24 Million Federal Contract to Operate Homeland Defense Information Analysis Center**

*Oak Ridge, Tenn.* – Information International Associates, Inc. (IIa) announced today its award of a \$24 million federal contract to operate the Homeland Defense and Security Information Analysis Center (HDIAC) for the Department of Defense (DoD) Defense Technical Information Center (DTIC).

The scope of the contract is focused on research and analysis in eight major Homeland Defense disciplines: Homeland Defense & Security; Critical Infrastructure Protection; Weapons of Mass Destruction; Chemical, Biological, Radiologic and Nuclear (CBRN) Defense; Biometrics; Medical; Cultural Studies; and Alternative Energy.

IIa is required through this contract to proactively and responsively provide timely and authoritative information relative to key research and development concepts and acquisition functions, results and trends, applications and processes, and assessments of HDIAC technology on military operations, and assessment of international R&D technology.

Activities covered under the contract include all aspects of identified or potential military and national security-related applications of HDIAC technology.

IIa is joined in this effort by its team of subcontractors: TASC, Northrop Grumman Information Systems, SciTech Services, Oak Ridge National Laboratory and Oak Ridge Associated Universities.

“IIa’s successful 25-year track record supporting complex data management programs helped earn our team this contract. We’re excited to have been selected to provide this tremendous service for the government,” said IIa Founder and CEO Bonnie C. Carroll. “With this win, IIa will operate or support two critical, national scientific and technical information centers in Oak Ridge.”

IIa currently supports the DOE Office of Scientific and Technical Information (OSTI).

As part of the contract, IIa will be responsible for developing databases of both information and human resources related to the HDIAC scope.

IIa will develop and operate the information infrastructure for both managing the international information resources as well as tracking use of the Center's products and services.

Finally, IIa will be responsible to develop and maintain anticipatory marketing of products and services to decision and policy makers in the acquisition community as well as other stakeholders in the Department of Defense components, other U.S. Government agencies and departments, their contractors and other authorized recipients.

*The contract award is sponsored by the Defense Technical Information Center, ATTN: DTIC-I, 8723 John J. Kingman Rd., Ste. 0944, Fort Belvoir, Va., 22060-6218.*

### **About IIa**

Founded in 1988, IIa provides solutions in information technology, knowledge management and data strategies to support information and mission requirements for customers in the federal government and commercial markets. Headquartered in Oak Ridge, Tenn., IIa is a woman-owned small business, and ISO 9001:2008 registered company. More information can be found at [www.iiaweb.com](http://www.iiaweb.com).
