

One of the most important things that Life Science Tennessee does as an organization is to advocate on behalf of our industry. Please mark your calendars and join us for the fourth annual Life Science Tennessee Day on the Hill in Nashville, on Tuesday, February 11. On this day the state's life sciences community will come together with state legislators and policy makers to highlight our industry's impact on Tennessee's economy and its ability to drive economic growth. Life Science Tennessee is proud of the impact we have made on state legislation that supports our industry. We ask that our members continue to provide support to maintain this presence.

Agenda

8 a.m. LifeSciTN member briefing, location TBA

9 a.m. - 3 p.m. Exhibit table in Legislative Plaza highlights the industry's presence and impact on Tennessee; Meetings with legislative leadership, administration, and commissioners
