This interactive, social engagement platform inspires kids and their families to live healthy lives by rewarding them for meeting milestones while measuring the child's progress and wellness outcomes for healthcare providers.

GridCure is a smart grid software analytics provider that focuses on security and operation management. The company offers solutions to power utilities that want to take full advantage of the enormous amounts of data their grids are generating.

Demo Day: Thursday, August 21, 2:00 p.m.-5:00 p.m. CDT
Schermerhorn Symphony Center 1 Symphony Place, Nashville, TN 37201

Healthcare MarketMaker (Nashville, TN) is a cloud-based marketplace that empowers buyers and sellers of medical and dental practices. About 33% or 400,000 physicians will retire in the next ten years and Healthcare MarketMaker will not only assist in helping those physicians exit medicine but, more importantly, will provide entering physicians with tools to manage the value of their practices during their career.

PinPtr (Nashville, TN-Vanderbilt University's Center for Technology Transfer and Commercialization) is a precision positioning platform aiming to bring low-cost, centimeter-scale 3D location information to applications where accuracy matters. Think driver-less cars, drone navigation, collision avoidance, and land surveying, all in a single, easy to use, one size fits all solution.

WoodGoods (Nashville, TN) is a manufacturer with an online marketplace to browse, build, and buy custom hardwood products on-demand.

LingoLift (Nashville, TN) is a language exchange platform, matching you to native speakers from different cultures for peer-to-peer live video chat.

Applyance (Nashville, TN) is the application engine that transforms boredom into efficiency by giving users the power of simplicity. Applyance provides a common application process that is simple, enjoyable and smart, and ensures you never answer the same question twice.

Skill Spectrum (Nashville, TN) connects a pre-vetted pool of high-caliber students to companies for projects, internships, and full-time positions. We reduce inefficiencies in the hiring and on-boarding process while preparing students for their careers through frequent, real-world work experience.

Aloncii (Nashville, TN-Pre-Flight Program at the Nashville Entrepreneur Center) Revitalizing couture and moving fashion forward with fabulous shoes made just for you.

Spotwise (Nashville, TN) provides a real-time parking management platform that allows cities and private operators to generate more revenue as well as reduce costs. They set up smart cameras that monitor parking spots automatically via a computer vision algorithm. They stream data collected from the camera into an intuitive

dashboard so that area managers can make sense of the information, and eventually they plan to roll this data out to drivers looking for spots as well.

Octovis (Nashville, TN) is removing the impediment of technology in patient encounters. Often the clinician spends a majority of their day inputting data into an EHR that reduces the time to see and interact with patients. They give them back their efficiency with our HIPAA/HITECH compliant data collection services on Google Glass, pushing patient data into the EHR real-time.

Beyond Right Now Technologies (Chattanooga, TN-Y-12 National Security Complex Innovation Competition) Platform of products for agriculture perimeter security enhanced with automated drone suite to reduce crop damage from mammalian pests and human theft.

APLAIR Manufacturing Solutions - Software and hardware integrated systems that utilize infrared and laser technologies to improve quality control in assembling sub-components of automobiles and detect discrepancies to prevent the production of defective/non-conforming materials

Clodico - Powerful and environmentally friendly odor control and biocide product that has the power to completely eradicate smoke and other odors from cars, thereby restoring the market value of the car

Cyberloop - Software and hardware application ("ISAAC") that connects to a car's onboard diagnostics port to add predictive safety, navigation and other features to old and new model cars

GrowPlastic - Oak Ridge National Lab technology that uses the complex polymer lignin to produce a non-petroleum-based 100% biodegradable plastic which can be used in making light-weight car components

InDrive - New technology that utilizes a torque converter to generate electricity and provide auxiliary power for a hybrid or electric vehicle

NoWire - New technology developed by Oak Ridge National Lab that provides wireless power transfer of electricity to charge any device or moveable object

PlateMatch - Self-learning license plate reading technology developed by the University of Tennessee

Demo Day: Thursday, August 14 2:00-5:00 p.m. CDT
Memphis Bioworks Foundation, 20 Dudley St, Memphis, TN 38103

Blood Monitoring Solutions (Vanderbilt University) Created a tracking system device that reduces the amount of blood that is wasted in hospitals due to compliance parameters.

EndoInsight (Vanderbilt University) Uses patented technology to develop a low-cost carbon dioxide insufflation system that will help reduce the pain and discomfort associated with colonoscopies.

Innometrix (Starkville, Mississippi) Developed a diagnostic technology that produces a biomechanical snapshot of the female pelvic floor that will give physicians better data prior to surgery.

Compression Kinetics (Chapel Hill, NC) Created a compression sleeve that uses a shape memory alloy to create a pressure wave to increase circulation throughout the human body and decrease peripheral edema.

Demo Day: Tuesday, August 5- 4:00-7:00 p.m. EDT
Square Room in Market Square, 4 Market Square, Knoxville, TN 37902

Adagio (Chattanooga, TN) Adagio lets professional and aspiring musicians manipulate multi-track audio recordings in a simple, intuitive interface on any device.

Artist Gig (Knoxville, TN) empowers musicians and fans to create and distribute high-quality recordings of their favorite performances – both easily and legally.

Closeup.fm (Knoxville, TN) is a direct-to-fan touring app that helps hard-working bands and solo artists book concerts with their fans.

Endwo (Knoxville, TN) is a Pandora-type platform for news. Based on previous reviews of content and the ratings from various other users automatically filter content to a user's feed.
