

Supply Chain Industries Recognizing Cargo Security Benefits

TrakLok International receives prestigious industry awards

Knoxville, TN – June 1, 2015 – TrakLok International LLC, a firm specializing in trailer and container security, today announced it has received an industry award for its TrakLok system that provides a turnkey solution to limit and record cargo access; The 2015 Supply & Demand Chain Executive 100 Great Supply Chain Projects award .

“With the increases in pilferage and cargo theft this award demonstrates the increasing importance that supply chain professionals are placing on securing the entire supply chain” said Tom Mann, president of TrakLok.

The award received by TrakLok for its integrated access control system, a reusable cargo security device provides robust physical security, multi-sensor alarm, GPS tracking and wireless alerts. The 2015 Supply & Demand Chain Executive 100 are supply chain solution and service providers helping their customers achieve supply chain excellence. They have produced measurable gains in ROI through cost-cutting and increased efficiency, whether in warehouse, transportation, procurement, sourcing or any other category in the end-to-end supply chain.

About Supply & Demand Chain Executive

Supply & Demand Chain Executive is the executive's user manual for successful supply and demand chain transformation, utilizing hard-hitting analysis, viewpoints and unbiased case studies to steer executives and supply management professionals through the complicated, yet critical, world of supply and demand chain enablement to gain competitive advantage.

About TrakLok International

TrakLok International LLC represents the coming together of a cargo security company and a wireless design firm to create a robust and intelligent cargo security device. Located in Knoxville, Tennessee, the TrakLok® security system includes: a hardened lock that withstands prying, cutting, or impact tools; an integrated alarm that sends alerts for unauthorized attempts to access cargo; and a GPS tracking system with a cloud-based Web portal that allows access to real-time information on location and cargo integrity.
