

JusticeXL 2015 Fall Cohort

Powered by SMTEC

1. Affidata Solutions

Robert Rodes (Manchester, TN)

Affidata plans to furnish security-compliant data that ensure chain-of-custody, integrity, and admissibility of police video camera evidence.

2. Ballisticks

Yvette Kendall (Duluth, GA)

Ballisticks provides flexible anti-ballistic personal wear protection panels for soldiers, police, and at-risk logistics personnel. The moldable panels can be quickly installed in vehicles, on building facades, and on other surfaces for bullet proofing.

3. Corvus Technologies Corp.

Spence Rosenbaum (Phoenix, AZ)

Corvus is an early stage high tech company with a proprietary, lifesaving, through-wall electronic tracking technology for first responders.

4. ICE BlackBox, Inc.

Ed Horcasitas (Los Angeles, CA)

ICE BlackBox has created a web front end for courts to register a petitioner's restraining or protective order system and subsequently report violations with certified validation.

5. Innertainment Delivery Systems

Turner Nashe (Nashville, TN)

IDS focuses on high quality, commercial grade electronic hardware and software platforms that have necessary security layers for jail/prison, hospital, and school administrators.

6. Kain, LLC

George Payne (New York City, NY)

Kain is an anonymous whistleblowing service that allows businesses to become more efficient while providing a voice and protection for all.

7. Perez Forensic Strategies, LLC

Vincent I. Perez, JD (Brentwood, TN)

Mr. Perez, a former police officer and current attorney, invented and patented a Touch DNA Recovery/Stabilization swab that can be stored at room temperature and dry on its own without refrigeration or degradation of the DNA.

8. red EHS

Paul Kapu (Nashville, TN)

RED-EHS is an integrated tablet based mobile platform that simplifies the collection and management of information to improve patient care, increase staff productivity, and manage inventory control and facility compliance.

9. REDOUBT.4

Clennon Steele (Tullahoma, TN)

REDOUBT.4 synchronizes new equipment and maintenance training for the Common Remotely Operated Weapons System (CROWS) program for the U. S. Army Tank and Automotive Command (TACOM).

10. Seke, LLC

Seth McBee (Lexington, KY)

Seke, LLC dba "Illuminated Safety" creates innovative reflective & LED wearable products to allow for customizable visibility safety up to one mile away.

11. U.S. Material Converters, LLC

Jamie Davenport (Tullahoma, TN)

This start-up company transforms virgin fabric (greige) into uniquely treated and printed fabrics ideally suited for military uniforms and wearable intelligent clothing for first responders.

12. X "Company Classified"

(Tel Aviv, Israel)

This company chooses to be in the 2015 JusticeXL Cohort on a non-disclosure basis.
