SYMPLY DATA CENTERS EXPANDS SERVICE TO NORTHERN VIRGINIA
ZayToken Crypto Coaching Service of Alexandria, VA to offer Mining Service

JOHNSON CITY, JULY 18, 2018 -- Symply Data Centers continues to grow, and grow quickly. ZayToken Crypto Coaching Service will offer Symply Data Center's crypto mining service for clients in the Northern Virginia and Washington DC area.

Cryptocurrency is here to stay. Cryptocurrency mining includes the task of validating and maintaining all the transactions - and earning cryptocurrency rewards for doing so. Mining is the foundation of the cryptocurrency economy.

"I was really impressed with Symply Data Centers' model for offering a mining service for everyone, taking care of all the technical aspects, and allowing the customer to earn and own all the cryptocurrency revenue. I've been looking for a service for my clients who want to take advantage of the opportunity in mining. I only recommend services that have my client's best interest first." said Ashonzay Matlock, Jr., president of ZayToken Crypto Coaching Service.

"ZayToken approaches the cryptocurrency market in a similar way we do - start with education and make sure you have an informed customer. Then we work to help that customer pursue his or her goals. I'm delighted that ZayToken trusts Symply Data Centers to offer a mining service to its clients." said John Cannon, president of Symply Data Centers.

ZayToken Crypto Coaching Service offers first class educational and informational coaching & training for anyone interested in this new exciting digital economy. ZayToken Crypto Coaching's mission is to be the #1 Blockchain & Cryptocurrency Coaching Service in the world. We offer educational and informational training ensuring our clients understand the strategies and techniques to further their success. Adding the ability to offer mining services to our clients aligns us with achieving that goal.

Symply Data Centers makes cryptocurrency mining available for everyone. We do all the technical work and let our customers keep all the cryptocurrency reward. For more information on Symply Data Centers, cryptocurrency mining, or seminars, visit SymplyDataCenters.com or call +1-423-930-6541.
