This program is funded in part through a Cooperative Agreement with the U.S. Small Business Administration.

U.S. Small Business
Administration

Overview

Translating academic research into viable commercial products can have tremendous impact on the scientific community.

LaunchTN offers resources for entrepreneurial researchers to advance their commercialization efforts.

» **SBIR/STTR Funding** enables small businesses to explore technological potential and provides the incentive to profit from its commercialization.

» **The Networks** program pairs life science and energy mentors with promising new companies and offers unique access to industry-specific research assets, subject-matter experts and Launch Tennessee's growth-stage programming.

» **Microgrants** provide up to \$6,000 for grant-writing assistance to Tennessee-based early-stage companies applying for an SBIR/STTR Phase I, Phase II or Fast-Track award.

» **SBIR/STTR Matching Fund** provides non-dilutive funding to Tennessee-based companies upon their successful federal grant award.

Making Tennessee the most
startup-friendly state in the nation.

Let's connect.
