

Oak Ridge Summit

June 1-2, 1995

Agenda

June 1, 1995

8:30-10:30 a.m.

Presiding:

Welcome:

LOCAL GOVERNMENT SESSION — Technology 2020 Facility

U.S. Representative Zach Wamp

Mayor Ed Nephew, City of Oak Ridge

County Executive David Bolling, Anderson County

Mayor Gene Roberts, City of Chattanooga

County Executive Kenneth Yager, Roane County

From law enforcement to records management to sewer treatment plants, local governments face tough issues every day. This session offers local governments throughout East Tennessee the opportunity to talk about their most pressing problems and learn how the capabilities in East Tennessee can be harnessed to produce feasible, practical solutions.

11:00 a.m.-1:00 p.m. Kick-Off Barbeque — American Museum of Science and Energy, under the tents

Presiding:

Introductions:

U.S. Representative Zach Wamp

Dr. Jon Veigel, President, Oak Ridge Associated Universities

Mr. Craven Crowell, Chairman, Board of Directors, Tennessee Valley Authority

Dr. Joe Johnson, President, The University of Tennessee

Mr. Gordon Fee, President, Lockheed Martin Energy Systems, Inc.

Memorandum of

Cooperation Signing:

2:00-4:00 p.m.

SCIENCE SESSION (FIELD HEARING) — Pollard Auditorium

Hearing of the House of Representatives House Science Committee
Basic Research Subcommittee

Panel:

U.S. Representative Steve Schiff, Chairman, Subcommittee on Basic Research

U.S. Representative Van Hilleary

U.S. Representative Lindsey Graham

U.S. Representative Zach Wamp

Members of the U.S. House Science Committee

Witnesses:

Dr. Neal Lane, Director, National Science Foundation

Dr. Martha Krebs, Assistant Secretary, Department of Energy

Dr. John McTague, Vice President, Technical Affairs, Ford Motor Company

Dr. Alvin Trivelpiece, Director, Oak Ridge National Laboratory

Dr. Joe Hamilton, Landon C. Garland Distinguished Professor of Physics, Vanderbilt University

Science is an important cornerstone in America's economic growth during the 21st century. A congressional field hearing will explore the nation's Long-Term Science Strategy — A 30-Year Approach. Building upon the spirit of cooperation among the region's institutions, businesses, and industries, the science session will focus on the strategy of prioritizing and supporting key science projects critical to America's future.

4:00-5:00 p.m.

Science Poster Session Display — Pollard Auditorium

6:00-7:00 p.m.

General Reception* — Garden Plaza Courtyard

7:00-9:00 p.m.

Introductions:
Keynote:

Breakfast* — Garden Plaza Ballroom

U.S. Representative John J. Duncan, Jr.
U.S. Senator Bill Frist

8:30–10:30 a.m.

Presiding:
Introductions:

ENVIRONMENTAL SESSION — Pollard Auditorium

Lincoln E. Hall, Vice President, Environmental Management and Enrichment Facilities
Dr. Robert Merriman, President and CEO, M4 Environmental L.P.

Remarks:

U.S. Representative John Myers, Chairman, Energy and Water
Subcommittee, U.S. House Appropriations Committee

East Tennessee's leadership in recycling hazardous and nuclear waste into reusable products is helping to solve one of America's environmental problems. World-class environmental activities in East Tennessee provide a national model for private-sector solutions to environmental issues. The environmental session will focus on identifying the obstacles that hamper the cleanup efforts across the country. Chattanooga's leadership and success in commercial cleanup and the environmental industry in Oak Ridge provide opportunities and challenges for sustaining successful private-sector activities.

10:30 a.m.–12:00 p.m. Environmental Exhibits and Technology Tours

Under the tents, in Pollard Auditorium, and various tour sites.

12:00–1:30 p.m.

Presiding:
Introductions:
Keynote:

Lunch* — Garden Plaza Ballroom

U.S. Representative Zach Wamp
The Honorable Marilyn Lloyd
Secretary of Energy Hazel O'Leary

1:45–3:45 p.m.

Presiding:
Introductions:

TECHNOLOGY SESSION — Pollard Auditorium

The Honorable Howard Baker
U.S. Representative Bob Clement
Mayor Victor Ashe, City of Knoxville

East Tennessee is successfully implementing innovative Technology Partnerships for Economic Growth in manufacturing, information technology, and transportation. These partnerships, while helping maintain national security, have created a wealth of economic impacts across the country. The technology session will focus on how these partnerships can further enhance America's Competitive Future through reduced regulations, streamlined technology commercialization, and the continued preservation, modernization, and dual use of key defense capabilities.

3:45–4:45 p.m.

Welcome:
